## THE FINNISH MARKET REVIEW.

## JHE MONEY MARKET.

No change wocurred in April and the beginning of May in the easy state of the money market that has continued for a long time, the situation being marked by the same quiet as before. Not even the seasonal tightening of the market was of any extent worth recording.

Credits granted by the Joint Stock banks to the public increased in April by 50.4 million marks, whereas the total credits in April, 1934, had increased by 80.2 millions. Deposits by the public grew simultaneously by 38.5 million marks as against only 12.8 millions during the same month last year. The tension between credits and deposits of the Joint Stock banks to and from the public thus increased from 388.0 million marks at the end of March to 399.9 millions at the end of April. The transactions of the Joint Stock banks with other credit institutions recorded slightly smaller deposits and credits. The surplus of deposits on these accounts amounted to 678.3 millions at the end of April. The cash of the Joint Stock banks increased again in April by 38.1 million marks to 387.1 millions at the end of the month.

The position of the Joint Stock banks towards foreign countries developed in the same direction as in February and March, but the reduction of the net credit balance was only 15.9 as against 184.4 and 37.9 millions respectively in the previous months. At the end of April this net credit balance amounted to 212.8 million
marks in comparison with only 33.3 millions a year ago.

The weekly statements of the Bank of Finland reflect on the one hand the seasonal growth in the demand for credit and on the other the strong foreign payment position. The credits of the Bank increased in April by 44.8 million marks and amounted at the end of the month to 905.4 millions. During January-April the increase in credits was 232.9 million marks compared with 199.0 millions during the same period in 1934; in 1933 the volume of credit decreased appreciably during these months owing to the conditions ruling at that time. There was no re-discounting of bills at all, like last year. At the same time the Bank of Finland's reserve of foreign currency increased in April by 68.7 million marks and thus amounted to $1,385.9$ millions compared with $1,031.4$ millions a year ago and 771.6 millions two years ago. The note reserve dropped in April, as usual at this time of year, by 43.5 million marks and amounted to 944.6 millions at the end of the month as against 734.8 millions a year ago.

During the first fortnight in May the credits granted by the Bank of Finland fell off slightly, by 7.3 million marks, while the reserve of foreign currency increased by 27.8 millions. By this means the reserve of foreign currency reached $1,413.7$ million marks, i.e., the highest amount recorded by the statements of the Bank since January, 1906; even then the reserve of
foreign currency was in reality less, if the foreign credit taken up by the Bank at that time is excluded.

The level of prices in the country remained practically unchanged in April. The only changes worth recording are the drop in the indices for imported and exported goods. The former dropped 1 point to 86 and was still 3 points higher than a year beforc. The price index for exported goods dropped 2 points to 7.4 comprared with 82 in April, 1934. If this trend of prices continues it is likely to have an unfavourable effect on Finland's balance of trade.

## TRADE AND INDUSTRY.

Foreign trade was rather livelier in April, as in the earlier months of this year, than during the same months in the preceding years. The value of imports amounted to 403.1 million marks against 383.1 millions in March and 369.9 millions in April, 1934. The value of exports was 347.6 million marks against 320.5 millions in March and 320.0 millions in April last year. Thus the balance of trade recorded a small surplus of imports of 5 b.j million marks in comparison with 49.9 millions in April, 1934. For the first four months of the year the balance of trade resulted in a surplus of imports amounting to 102.6 million marks. Although this was larger than in the preceding years, when exports even exceeded imports in some cases, it may be said that the result is satisfactory in comparison with what was usually the case in former years.

Industrial production progressed favourably during the first quarter according to the Unitas index. The volume of production is marked by the index 141 against 127 for the same quarter in 1934 and 110 and 97 respectively for the two previous years $(1926=100)$. Owing to the weaker tendency of prices for exported goods the value of production did not increase as much: the index for the value was 117 against 110 last year and 89 and 83 in the preceding years. These rises are mainly a consequence of
the development of industry supplying the home market; the volume index rose from 120 in the first quarter of 1934 to 140 this year, while the value index rose from 112 to 130 . The increase was very considerable in the case of the metal and machinery, textile, leather and footwear, and building materials industries. The trend of the exporting industries was less satisfactory. The index of volume rose, indeed, from 136 to 149 during the period referced to, principally on account of increased production in the different branches of the paper and pulp industry, but the index of value fell from 107 to 102, chiefly owing to the worse position of the sawmills.

The state of the timber market has not experienced any great change, but as stocks have decreased considerably in Great Britain and some other importing countries owing to the active consumption of timber, sales from Finland have also grown livelier. By the middle of May the total sales are estimated at about 450,000 standards in comparison with about 660,000 standards last year, when the market was exceptionally good.

An agreement was concluded in April between the manufacturers of mechanical pulp in Finland, Norway and Sweden with regard to restricting the quantities produced in order to avoid the flooding of the market that occurs at times. The agreement does not affect prices, but it is hoped that by this means it may be possible to avoid the sharp fluctuations in price that are unsatisfactory for both buyers and sellers.

## THE LABOLR MARKEI.

The labour market improved appreciably in April, to a great extent owing to the usual seasonal conditions. The number of unemployed fell off from 22,200 at the end of March to scarcely 18,100 at the end of April. Thus the number of unemployed was $4+$ per cent lower than a year ago and 66 per cent lower than two years ago.

## CONTENTS OF THE TABLES.

## I. MONEY MARKET.

Bank of Finland:
Weekly Statement.
Note issue.
Note circulation and foreign correspondents.
Ordinary cover, note reserve and home loans.
Re-discounted bills and balances of current accounts.

The term imports covers all imported goods which are placed on the market either immediately after importation or after storage. Exports covers all goods exported from the opon market, including re-exports. Goods are declared to the Castoms by. their owner, who must at the same time state the value of the goods as calculated at the frontiers of the country.

* Preliminary figures subject to minor alterations,

| April | 886 | 957 | 1083 | 928 | 1333 | 1175 | 1854 | 980 | $+1$ | April |

The index is calculated by the Research Office of the Ministry for Soclal Affairs according to monthly reports from 30 different centres. It is based on the cost of living for the first half of $1914=100$ and refers to the normal budget of a workman's fanmily. The index for the total cost of living is the average of the weighted group indices.
36. - WHOLESALE PRICE INDEX.

The index is calculated by the Central Statistical Office, and is based on the average prices for $1926=100$. The first group of indices refers to goods appearing in local wholesale trade in Finland, whereas the indices for imported and exported goods refer to the total quantities of goods imported or exported, including the movement of such goods that are in no way intended for wholesale trade in Finiand. An indirect wefghting has been applied, by means of which each class of goods is represented by the number of commodities corresponding to the calculated importance of this class in wholesale trade. The averages are arithmetical ones.
37. - INDEX OF WORKING HOURS IN INDUSTR Y.

| Quarter | Branch of Industry |  |  |  |  |  |  |  | Total | Of which |  | Quarter |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## CERTAIN PARTICULARS ABOUT FINLAND.

## 1. FORM OF GOVERNMENT.

Finland formed a part of the kingdom of Sweden from 1154 to 1809; from 1809 it was an autonomous Grand Duchy connected with Russia up to December 6th, 1917, when Finland declared its independence, which was acknowledged by all the Powers including Soviet Russia. It became a republic in 1919. The legislative power of the country is vested in the Diet and the President. The highest executive power is held by the President chosen for a period of 6 years. The present President P. E. Svinhufuud is elected for the term March 1st, 1981, to March 1st, 1937.

The Diet, composed of 200 members, is elected by universal suffrage. The proportions of the different parties in the Diet elected in 1933 are as follows:

|  | Number |
| :---: | :---: |
| Social-Democratic party | . 78 |
| Agrarian party | 53 |
| Swedish party | 21 |
| Unionist party | 18 |
| Patriotic National Moven | 14 |
| Progressive party | 11 |
| Small farmers' party | 3 |
| People's party | . 2 |

## 2. LAND.

THE AREA is $\mathbf{3 8 8 , 2 1 7}$ square kilometres $=149,900$ square miles (Great Britain's area is 89,047 sq. m. and Italy's area 117,982 sq. m.). Of the total area $11.5 \%$ are lakes. On an average $11.8 \%$ of the land in the south of Finland is cultivated, $1.1 \%$ in the North, $6.6 \%$ of the whole land. Of the land area 25.3 mill. ha ( 62.5 mill. acres) or $73.0 \%$ are covered by forests.

THE AVERAGE TEMPERATURE in the coldest month' is in S. W. Finland - $5^{\circ}$ to - $6^{\circ} \mathrm{C}$., in Lappland - $15^{\circ} \mathrm{C}$. and during the warmest month $+15^{\circ}$ and $+13^{\circ}$ to $+14^{\circ}$ C. resp. The average temperature in Helsinki (Helsingfors) is $+4.6^{\circ}$ (in Oslo $+5.4^{\circ}$, in Montreal $+5.4^{\circ}$, in Moscow $+3.6^{\circ}$ ). The ground is covered by snow in the South for about 100 days, in Central Finland for 150 to 180 days, in Lappland about 210 days.

## 3. POPULATION.

NUMBER OF INHABITANTS (1933): 3.7 millions (of whom 0.2 million emigrants), Sweden (1933) 6.2, Switzerland (1932) 4.1, Denmark (1932) 3.6 and Norway (1933) 2.9 millions.

DENSITY OF POPULATION (1933): In South-Finland 18.9, in North-Finland 2.6 and in the whole country an average of 10.9 inhabitants to the square kilometre.

DISTRIBUTION (1933): $79.8 \%$ of the population inhabit the country, $20.2 \%$ the towns and urban districts. The largest towns are (1933): Helsinki (Helsingfors), the capital, 268,592 inhabitants, Viipuri (Wiborg) 71:817, Turku (Åbo) 69,041, Tampere (Tammerfors) $58,220$.

OCCUPATION (1930): agriculture $59.6 \%$, industry and manual labour $16.8 \%$, commerce $4.3 \%$, transport $3.8 \%$, other occupations $15.5 \%$.

LANGUAGE (1930): Finnish speaking $89.4 \%$, Swedish speaking $10.1 \%$, others $0.5 \%$.

RELIGION (1933): Lutheran 96.2 \%, Greek-Orthodox $1.8 \%$, others $2.0 \%$.

EDDCATION (1930): Amongst persons over 15 years of age only $0.9 \%$ are illiterate. There are three universities founded in 1640,1917 and 1920.

INCREASE OF POPULATION (1933): Births $17.4 \%$, deaths $12.9 \%$ (in France in $193116.2 \%$, and in England in $193112.8 \%$ \% , natural increase $4.5 \%$.

## 4. TRADE AND COMMUNICATIONS.

FOREST RESOURCES. The growing stock of the forest is 1,620 million $\mathrm{m}^{2}$ (57,214 million cubic feet). The merchantable timber
(measuring 20 cm at breast height $=6 \mathrm{in}$. at a height of 18 ft. ) amounts to 1,657 million trees. Of this number pine is represented by $60.7 \%$, spruce by $28.1 \%$, the conifers thus constituting $88.8 \%$ or 1,383 million trees; leaftrees, mostly birch, $11.2 \%$ or 174 million trees. The annual increment is 44.4 million $\mathrm{m}^{3}(1,568$ million cub. ft.). The annual fellings according to earlier calculations are 40 million $\mathrm{m}^{\mathrm{s}}$ ( 1,413 million cub. ft .): In North Finland the increment is much larger than the fellings, but in South Finland excess felling occurs locally.

AGRICULTURE (193): Cultivated land 2.2 million hectars, divided as follows: area under cultivation $0.3-10$ hectars $33.4 \%$, $10-50$ ha $52.1 \%$, $50-100 \mathrm{ha} 8.4 \%$, over $100 \mathrm{ha} 6.1 \%$. Cultivated land is divided between the different kinds of crops as follows: 50.7 \% hay, 18.9 \% oats, 9.6 \% rye, 5.4 \% barley, 3.8 \% potatoes, $12.1 \%$ other. The number of dairies in 1933 amounted to 627.

OWNERSHIP OF LAND. The land area is distributed among different classes of owners approximately as follows: private $52.1 \%$. State $39.7 \%$, Joint Stock Companies $6.5 \%$, communities $1.7 \%$.

INDUSTRY (1933): Number of industrial concerns 3,527, hands 140,736 , gross value of products of industry 10,837 million marks.

LENGTH OF RAILWAYS (1933): 5,574 km, of which 5,319 km State railways and 255 km private. The gauge is 1.524 m .

COMMERCTAL FLEET (1934): Steamships E48 (251,890 reg. tons net), motor vessels 157 ( 17,323 r. t.), sailing ships 218 ( 61,168 r. t.). Total 923 (330 381 r.t.).

## 5. FINANCE AND BANKING.

CURRENCY. Since 1860 Finland has its own monetary system. From 1877 up to the Great War the currency maintained its stable gold value and after the disturbances caused by the war Finland has again from January 1st, 1926, a gold standard. The unit of currency is the mark (Finnish smarkkas) $=100$ pennia. According to the monetary law of December 21st, 1925, a gold coin of 100 marks' value shall contain $3^{15} / 19$ grams of fine gold. Since October 12th, 1931, the redemption of bank notes in gold is, however, suspended.

STATE FINANCES. According to the balance sheet for 1934 the State revenue was $4,135.7$ million marks of which $3,366.9$ million marks were current revenue, and State expenditure $4,100.7$ million marks, of which $2,599.2$ million marks were current expenditure. The princjpal sources of revenue were as follows: State property and undertakings (net) 320.8, direct taxes 485.0 , indirect taxes $1,815.6$, stamp duty 165.7 , charges 94.8 , interest and dividends 184.2 and capital revenue 768.8. The value of State property in 1922 is estimated at $11,150.6$ million marks. For Public Debt see table 19 in this issue.

MUNICIPAL FINANCES. According to the Budget for 1934 expenditure amounted to $1,429.1$ million marks. Income from taxation was calculated at 466.4 million marks, taxed income at 4,978.4 million marks. The municipal income tax (non-progressive) averaged $9.4 \%$ of the ratepayers' income.

THE BANK OF ISSUE. The Bank of Finland, (founded in 1811) is a State Bank. Its head-office is in Helsinki (Helsingfors) with branches in Turku (Åbo), Pori (Björneborg), Vaasa (Vasa), Oulu (Uleaborg), Kuopio, Joensuu, Sortavala, Vlipuri (Wiborg) Mikkeli (S:t Michel), Tampere (Tammerfors), Hämeenlinna (Tavastehus), Jyväskyla and Kotka.

THE JOINT STOCK BANKS (1985): Number 9, possess 475 offices, where all kinds of banking business is transacted. Including all banks, there is one banking establishment per $7,3,00$ inhabitants.

The largest banks are: Kansallis-Osake-Pankki, Ab. Nordiska Föreningsbanken and Helsingfors Aktiebank, all with head offices in the capital.

OTHER BANKS (1935): Mortgage banks 6, Savings banks 482 Co-operative Credit Societies 1,342 and a Central Bank for the latter.

# FINNISH STATE FINANCES IN 1934. 

BY
A. E. TUUDEER, pH. d.

STATISTICIAN TO THE BANK OF FINLAND.

## GENERAL REVIEW.

The recovery in economic conditions that occurred in 1934 reacted favourably on the Finnish State finances. The yield from the principal sources of revenue increased appreciably, so that it was possible to make larger grants for various purposes, the funds of which had been curtailed during the period of depression. In spite of expenditure being increased by this means, the revenue sufficed to cover it. As we show later, it even proved possible to set aside a surplus to be used at a future and more difficult period.

The satisfactory course of the State finances will be seen, in its main features, in the following table.

Table I. FINNISH STATE REVENUE AND EXPENDITURE.

|  | 1932 | 1933 | 1934 |
| :---: | :---: | :---: | :---: |
| e | Mill. mks. | Mill.mks. | Mill.mks. |
| Current revenue | 2438.2 | 2872.6 | 3366.9 |
| Loans issued | 214.6 | 200.0 | 503.6 |
| Other capital revenue | 272.3 | 227.9 | 265.2 |
| Total | 2925.1 | 3300.5 | 4135.7 |
| Utilised out of cash balance of previous years ....... | 42.1 | - | - |
| Deficit | 34.5 | - |  |
| Grand total | 3001.7 | 3300.5 | 4135.7 |
| Expenditure: Current expenditure | 2484.6 | 2543.6 | 2599.2 |
| Redemption of loans | 58.2 | 68.9 | 394.2 |
| Other capital expenditure .. | 458.9 | 634.7 | 1107.3 |
| Total | \| 3001.7 | 3247.2 | 4100.7 |
| Surplus . . . . . ............. | - | 53.3 | 35.0 |
| Grand total\| | 3001.7 | 3300.5 | 4135.7 |

As this table shows, the total revenue of the State rose from 1933 by 835.2 million marks
or 25.3 per cent, while the total expenditure increased by 853.5 millions or 26.3 per cent. It should be noted, however, that some conversions of loans, amounting to 320.6 million marks, are included both in expenditure and revenue, and that "Other capital expenditure" includes unusually large transfers to State funds. In order to eliminate these disturbing factors it is best to devote attention particularly to the current or ordinary revenue and expenditure of the State.

The increase in the current revenue amounted to 494.3 million marks in 1934 and this revenue was no less than 928.7 millions or 38.1 per cent in excess of the corresponding sum in 1932, when the revenue was at its lowest owing to the depression. This large increase indicates very clearly, how susceptible the State revenue is to fluctuations in economic conditions. The changes in the current State expenditure are considerably less; last year it increased iny 55.6 million marks and was only 114.6 millions larger than in 1932. While current expenditure in 1932 was a few tens of millions larger than the corresponding revenue, the latter exceeded expenditure last year by no less than 767.7 million marks.

To illustrate the course of development during a greater number of years we reproduce the diagram on the opposite page, for the purpose of which the official figures in the finance accounts for 1925-1931 have been calculated afresh according to the principles that form the basis for the finance accounts of the State for 1932-1934. Revenue and expenditure re-

ferring to State landed property and business undertakings are given in net amounts, i.e., current expenditure has been deducted from revenue.

## EXPENDITURE.

According to the Budget for 1934 passed by the Diet, the total expenditure was estimated at $3,021.0$ million marks, of which $2,464.6$ millions were current expenditure and 556.4 millions capital expenditure. As usual, various supplementary grants were made in the course of the year, either for entirely new objects or for such objects for which the grants included in the Budget had proved too small. As the State revenue turned out to be more plentiful than had originally been estimated, the supplementary grants were numerous and large, so that the increase amounted to 875.3 million marks. A small part of this amount or 138.0 millions referred to current expenditure and the larger part or 737.3 millions to capital expenditure of various kinds.

The actual expenditure did not differ much from the figures of the supplemented Budget. The greatest difference lay in the fact that, when the surplus exceeded expectations, as referred to later, the greater part of it was transferred to the Budget Equalisation Fund.

The distribution of expenditure according to main groups is given in table II, in which the
corresponding figures for the two provious years are included for the sake of comparison.

Table II. NET State Expenditure.

| Main groups. | 1932 | 1933 | 1934 |
| :---: | :---: | :---: | :---: |
|  | Mill.mks. | Mill.mks. | Mill.mks. |
| 1. President of the Republic | 2.0 | 2.0 | 2.0 |
| 2. Diet ........ | 11.2 | 12.6 | 11.5 |
| 3. Government | 5.3 | 8.3 | 5.7 |
| 4. Chancellery of Government | 4.2 | 5.7 | 6.1 |
| 5. Ministry for Foreign Affairs .............. | 42.5 | 5.7 37.3 | 6.1 42.7 |
| 6. Ministry of Justice | 97.2 | 101.1 | 104.9 |
| 7. Ministry of the Interior | 314.2 | 321.0 | 327.4 |
| 8. Ministry of Finance ... | 49.5 | 48.8 | 49.0 |
| 9. Ministry of Defence . . | 477.3 | 469.0 | 490.8 |
| 10. Ministry of Education .. | 447.8 | 445.8 | 464.4 |
| 11. Ministry of Agriculture | 176.4 | 240.0 | 306.5 |
| 12. Ministry of Communications | 165.4 | 217.3 | 146.8 |
| 13. Ministry of Trade and Industry | 71.6 | 68.5 | 74.7 |
| 14. Ministry for Social Affairs | 56.8 | 57.1 | 62.7 |
| 15. Miscellaneous expenditure | 37.2 | 32.0 | 132.3 |
| 16. Pensions and relief payments | 86.2 | 86.9 | 88.1 |
| 17. Interest and expenditure on the Public Debt ... | 419.5 | 390.2 | 283.6 |
| 18. State industrial undertakings | 20.3 | - |  |
| Total current expenditure | 2484.6 | 2543.6 | 2599.2 |
| 19. Revenue-producing capital expenditure | 229.5 | 334.1 | 1073.0 |
| 20. Capital expenditure not producing revenue ... | 287.6 | 369.5 | 428.5 |
| Total capital expenditure <br> Grand total | $\left\|\begin{array}{r} 517.1 \\ 3001.7 \end{array}\right\|$ | \|r|r| 703.6 | $\begin{aligned} & 1501.5 \\ & 4100.7 \end{aligned}$ |

Current expenditure increased slightly in the majority of the main groups. A large increase is noticeable in the eleventh and fifteenth groups while the twelfth and seventeenth groups show a considerable decrease. However, these changes are to a great extent not actual, but formal, for the increase in expenditure for agricultural purposes is due to the whole amount employed for stabilising the prices of some kinds of agricultural produce being now entered as expenditure, whereas formerly the greater part of it was booked as restitutions of Customs duties. The decrease in expenditure on communications and public works is explained by the fact that grants for public works, as far as they are included in current expenditure, are now transferred to the fifteenth main group, the total of which has thus risen. The seventeenth main group "Interest and expenditure on the Public Debt" is of special interest. This expenditure was reduced by about 30 per cent, partly as a result of the fall of the dollar, and partly owing to the decrease in the short-term indebtedness and the conversion of loans at lower rates of interest.

Among the capital expenditure the large increase of expenditure on revenue-producing objects merits special notice. In order to illustrate the character of such expenditure it may be mentioned that it is divided into five headings in the following manner. An amount of 224.2 million marks was invested in business undertakings and landed property of the State, the greater part being utilised for extending the State railways and telephone system. Loans for various purposes, including the improvement of the soil and settlement work, were granted to a value of 57.3 million marks. For the redemption of the Public Debt 394.2 millions were employed, it being worth noting in this connection that two loans were redeemed in their entirety. Transfers to funds not included in the Budget amount to 310.0 million marks. Of this sum 300.0 millions were transferred to the newly established Budget Equalisation Fund, the aim of which is
to modify the influence of business cycle fluctuations on the State finances. This amount was obtained by securing 100.0 million marks by means of a premium bond loan and transferring 200.0 millions from the Budget funds, when it became evident that the finance accounts for 1934 had resulted in a considerable surplus. The increase of expenditure in the nineteenth main group since 1933 is due principally to the transfer of 300.0 millions to funds and to the conversion of State loans by about 320 million marks. The last item in the nineteenth group consists of grants for relieving unemployment amounting to 87.3 million marks. However, this sum does not include all means employed for this purpose, for the total of such grants is 274.3 million marks in comparison with 312.4 millions in 1933.

## REVENUE.

In the Budget for 1934 the State revenue was estimated at $3,065.6$ million marks, $2,886.5$ millions being current revenue and 179.1 millions capital revenue. During the year some small changes were made and some loans were negotiated that were not included in the Budget, although they were anticipated at the time the Budget was drawn up. Thus the estimated revenue amounted to $3,734.2$ million marks, of which $2,897.9$ millions were current revenue and 836.3 millions capital revenue.

As already stated, the actual yield of the principal sources of revenue exceeded the estimated amounts to an appreciable extent. In this way current revenue amounted to $3,366.9$ million marks. At the same time the loans actually issued fell short of the proposed loans, so that the amount of capital revenue was less than had been estimated or 768.8 million marks. The actual total revenue thus amounted to $4,135.7$ million marks. Its distribution according to main categories is shown in table III.
It will be seen that the revenue increased in all the main groups with the exception of "Sundry revenue" which fell off slightly.

Table III. STATE REVENUE.

| Maingroups. | 1933 |  | 1934 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | $\begin{gathered} \text { Mill. } \\ \text { mks. } \end{gathered}$ | \% | $\begin{gathered} \text { Mill. } \\ \text { miks. } \end{gathered}$ | \% |
| 1. Taxes | 2151.4 | 65.2 | 2466.3 | 59.6 |
| 2. Dues | 85.6 | 2.6 | 94.8 | 2.3 |
| 3. Interest, dividends and share in profit of Bank of Finland | 205.1 | 7.7 | 294.1 | 7.1 |
| 4. Sundry revenue | 194.2 | 5.9 | 191.4 | 4.6 |
| 5. State undertakings and landed property | 186.3 | 5.6 | 320.3 | 7.8 |
| Total current revenue | 2872.6 | 87.0 | 3366.9 | 81.4 |
| 6. Capital revenue | 427.9 | 13.0 | 768.8 | 18.6 |

Among current revenue the first group, taxes, increased most, viz., by 314.9 million marks or 14.6 per cent. Relatively, however, the increase was largest in revenue derived from State undertakings and landed property, as this increased by 134.0 million marks or 71.9 per cent.

If we divide the current State revenue according to the nature of the revenue into three main groups, we obtain the following table.
rable IV. CURRENT REVENUE.

|  | 1933 | 1934 |
| :---: | :---: | :---: |
|  | Absolute amount. |  |
|  | Mili. miks. | Mill. miks. |
| Tncome from undertakings .. | 186.3 | 320.3 |
| Receipts from taxation .... | 2151.4 | 2466.3 |
| Other revenue ........ | 534.9 | 580.3 |
| Total | 2872.6 | 3366.9 |
|  | In \% of net revenice. |  |
|  | Per cent. | Per cent. |
| Income from undertakings .. | 6.5 | 9.5 |
| Receipts from taxation .... | 74.9 | 73.3 |
| Other revenue ......... | 18.6 | 17.2 |
| Total | 100.0 | 100.0 |
|  | Per head of population. |  |
|  | Mks. | Mks. |
| Income from undertakings .. | 53 | 90 |
| Receipts from taxation .... | 609 | 695 |
| Other revenue ............ | 152 | 163 |
| Total | 814 | 948 |

The greater part or almost three-fuarters of the current revenue was obtained by means of taxation. about one-tenth consisted of the net income from business undertakings and the
balance. about 17 per cent, was received from other sources. The composition of the two former groups is dealt with below; here it need only be mentioned that an appreciable item in "Other revenue" consisted of reductions introduced for the period of depression in the pay of Government employees, a total of 52.4 million marks.

With regard to the considerable amount of capital revenue and its comparatively large increase, the reason is to be found, as already mentioned, in the conversion of loans. If the amounts employed for the redemption and conversion of the Public Debt are deducted from the loans issued, we find that the new loans only amounted to 109.4 million marks, while the corresponding amounts for the two previous years were 131.1 and 156.4 millions respectivels.

## STATE UNDERTAKINGS.

The income from business undertakings of the State has experienced great changes in the course of time, which is due partly to the individual undertakings that have been included under this heading in the different years, but is partly a result of the influence of fluctuations in business conditions on the yield of such concerns. The large increase of this income during 1934 is, therefore, a consequence of the livelier economic activity that occurred last year in so many spheres. In table V we give particulars of the gross receipts and gross expenditure of the principal business undertakings and landed property of the State and the difference between them in 1934 and in 1933.

State railways and forests alone were of any great financial importance for the Treasury: together they brought in last year 84 per cent of the total net income of State undertakings. The third place was occupied by Posts and Telegraphs, the yield of other undertakings and landed property being small. It should be noted however, that the majority of the State undertakings are by no means pure business undertakings, established for the purpose of

Table V. STATE UNDERTAKINGS.

providing revenue for the State, but that they principally serve other, i.e., public, purposes.

In addition to the undertakings specified the State owns, entirely or for the greater part. some business undertakings in the form of limited liability companies. The income from these is, however, not included in the income referred to above, but in the third main group "Interest, dividends and share in the
profit of the Bank of Finlund". The dividends on such shares amounted to 129.1 million marks last year.

## REVENUE FROM TAXATION.

The revenue of the State from taxation was divided into main groups as shown in table VI below.

Table VI. REVENUE FROM.TAXATION.

Nearly three-fuarters of the revenue from taxation was derived from indirect taxes and barely one-fifth from direct taxes. Miscellaneous taxes were of little importance. The considerable increase in revenue from taxation since 1933 was chiefly due to indirect taxes, the yield from which increased by 294.3 million marks or 19.3 per cent. The yield from direct taxes only increased by 26.2 millions or 5.7 per cent, and the third category of taxes recorded a decrease.

The only direct tax of any importance was the income and property tax. which yielded 483.0 million marks in 1934 in comparison with 456.6 millions in 1933 and 437.9 millions in 1932.

The most important indirect taxes are illustrated in the following table.

## Table VII. INDIRECT TAXATION.

|  |  |  | 1934 |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |
| Customs revenue: |  |  |  |  |
| Import duties | 1242.5 | 57.8 | 1485.8 | 60.2 |
| Export duties | 0.6 | 0.0 | 1.0 | 0.0 |
| Miscellaneous receipts . | 0.1 | 0.0 | 0.0 | 0.0 |
| Excise: |  |  |  |  |
| Tobaceo | 166.3 | 7.7 | 179.6 | 7.3 |
| Matches | 14.2 | 0.7 | 15.3 | 0.6 |
| Sweetstuffs | 12.1 | 0.6 | 14.4 | 0.6 |
| Beer tax ............ | 26.9 | 1.2 | 38.3 | 1.6 |
| Spirits and berry wines | 58.6 | 2.7 | 80.7 | 3.3 |
| Margarine products and cattlefood .......... | - | - | 0.5 | 0.0 |

By far the greatest importance attached to import duties that produced three-fifths of the State revenue from taxation and about 44 per cent of the total net current revenue. Excise yielded altogether 328.8 million marks or 13.3 per cent of the revenue from taxation. The most important items were the excise on tobacco, beer, and spirits and berry wines. The new excise introduced during the year on margarine and cattlefood was not yet able to yield an amount 'worth mentioning.

In regard to the principal source of taxation, the import duties, their yield is calculated to have been divided among the most important goods imported as shown in table VIII.

Table VIII. CUSTOMS REVENUE.

| Wheat, wheaten flour and grain of wheat ........ | 1933 | 1934 |
| :---: | :---: | :---: |
|  | Mill. mks. | Mill. .mkn. |
|  | 180.8 | 187.5 |
| Other cereals | 94.1 | 84.1 |
| Coffee | 191.0 | 204.1 |
| Sugar | 347.4 | 354.4 |
| Tobacco | 67.9 | 80.6 |
| Spirits . . . . . . . . . . . . . . . | 20.7 | 36.1 |
| Total | 901.9 | 946.8 |
| Other commodities ........ | 340.6 | 539.0 |
| Grand total | 1242.5 | 1485.8 |

The increased yield from duties is mainly a natural consequence of the larger quantities imported.

THE PUBLIC DEBT.
The booked value of the Public Debt at the beginning of 1934 amounted to $3,507.7$ million marks, of which $3,100.0$ millions were funded and 407.7 millions floating debt. By the end of the year the Public Debt had been reduced to $3,381.8$ million marks, $3,273.3$ millions being funded and 108.5 millions floating debt. The floating debt, the fluctuations in which do not affect the finance accounts, was reduced last year by 299.2 million marks or almost threequarters. On the other hand the funded debt increased by 173.3 millions. The total Public Debt at the end of 1934 was therefore 125.9 million marks less than a year before according to the booked values.

In regard to the funded debt it will further be noted that the foreigıl debt was reduced from 2,384.0 to $2,282.6$ million marks, while the intermal debt rose from 716.0 to 990.7 millions. These changes were principally due to the conversion transactions that were started in 1934. but were to a great extent only completed in 1935. One result of these conversions will be reduced expenditure on interest by the State.

## CONCLUSION.

The finance accounts provided a surplus of 35.0 million marks. By this means the unemployed cash balance, that had disappeared during the trade depression and been converted into a deficit, increased to 53.8 million marks. To this should be added the amount of 300.0 million marks transferred to the Budget Equalisation Fund that is available for the Treasury, when economic conditions again reduce the revenue of the State.

The above remarks show that the finance accounts for 1934 provided a gratifying result. It is evident. too, that the financial position of the State improved to a high degree last vear. The revenue and expenditure still contained some items that are a direct consequence of the strained finances of the period of depression, but these have disappeared from the Budget for the current year.

## ITEMS.

The State finances during the first quarter of 1935. The State finances during the first three months of the current year generally record very slight changes from 1934. The current revenue of the State during this period amounted to 608.6 million marks compared with 626.4 millions last year. Capital revenue totalled 58.9 millions as against 48.8 millions for the same period last year. Current expenditure amounted to 611.7 million marks this year compared with 606.5 millions last year, while the corresponding figures for capital expenditure were 92.8 and 83.8 million marks. Among the revenue the following important items record an increase, viz., net income of the State Railways 32.5 against $2 . .6$ million marks, net income from the State forests 55.5 against 51.1 millions, net income of the Posts and Telegraphs 9.9 against 8.6 millions, stamp tax 49.4 against 46.7 millions and interest and dividends 56.3 against 17.5 millions. On the other hand some important sources of revenue have yielded less, e.g., revenue from duties has decreased to 300.4 million marks from 312.0 millions last year, the yield of the income and property tax from 21.5 to 18.1 , excise on tobacco from 41.0 to 33.2 and excise on corn brandy and local berry wines from 18.2 to 7.0 millions. Naturally, chance circumstances are partly the cause of these differences that adjust themselves in the course of the year.

The Public Debt. The changes in the Public Debt that are a result of the conversions taking place, caused certain alterations in April, too, in the booked value of the Public Debt and in its composition. In broad lines the changes are shown in the following table:-

|  | $\begin{aligned} & \text { April } 30 \text {, } \\ & \text { Mill. mks. } \end{aligned}$ | $\begin{aligned} & \text { March 31, } \\ & \text { 1935 } \\ & \text { Mill. mks. } \end{aligned}$ | $\begin{gathered} \text { Dec. } 31, \\ 1934 \\ \text { Mill. mks. } \end{gathered}$ | $\begin{array}{r} \text { Dec. } 31, \\ \text { Mill. } 1933 \mathrm{mks.} \end{array}$ |
| :---: | :---: | :---: | :---: | :---: |
| Funded debt: |  |  |  |  |
| Foreign | 1,890.1 | 1,938.3 | 2,282.6 | 2,384.0 |
| Internal | 1,290.4 | 1,141.1 | 990.7 | 716.0 |
| Floating debt: |  |  |  |  |
| Foreign | 59.0 | 59.0 | 59.0 | 358.9 |
| Internal | 63.0 | 60.9 | 49.5 | 48.8 |
| Total | 3,302.5 | 3,199.3 | 3,381.8 | 3,507.7 |

The total debt again recorded a slight increase in April of $\mathbf{1 0 3 . 2}$ million marks, but this does not outweigh the reduction in January-March, so that at the end of April the Debt was slightly smaller than at the beginning of the year. The shifting of the funded debt from foreign to internal continued in April, the internal debt increasing by 149.3 million marks, while the foreign debt decreased by 48.2 millions. While only 23.1 per cent of the funded debt represented internal debt at the end of 1933, the ratio had increased to 40.6 per cent by the end of April, 1935. In the interim the foreign funded debt had been reduced by 493.9 million marks, while the internal debt had grown by 574.4 millions. Besides, the greater part of the short-term foreign debt had been redeemed.

Building operations. Building operations in Lelsinki (Helsingfors) have become very lively. At the end of April 74 new houses were being built and 27 were being rebuilt, the corresponding figures for 1934 being 44 and 23 . The cubic measurements of the houses under construction amounted to about $880.000 \mathrm{~m}^{3}$ as against $585.000 \mathrm{~m}^{3}$ a year ago. The increased liveliness in building is, perhaps, best illustrated by the fact that a larger number of plans has been examined by the building inspectors than in
any year since 1929 , when the building boom of 1927-1928 was already falling off very much. The cubic measurements of the buildings, for which the plans have been approved, amounted to about $298,000 \mathrm{~m}^{3}$ at the end of April this year compared with $237,000 \mathrm{~m}^{3}$ in 1934, less than 200,000 in each year from 1933 to 1931 , only 77,000 in 1930 and 278,000 in 1929. At the same date in 1997 and 1928 , however, the corresponding cubic measurements were several times larger than this year, viz., 586,000 and $940,000 \mathrm{~m}^{3}$.

The area under cultivation. The Statistical Department of the Board of Agriculture recently published its report on agriculture during 1934. This indicates that the field area amounted altogether to $2,468,000$ hectares. The increase since the previous year was 52,000 ha or about 2.1 per cent. The changes in the disposal of the tilled area are shown in the following figures referring to 1934,1933 and 1920. The following crops were grown on the field area:-

|  | $\begin{gathered} 1934 \\ 1000 \mathrm{ha} . \end{gathered}$ | $\begin{gathered} 1983 \\ 1000 \mathrm{hal} . \end{gathered}$ | $\begin{gathered} 1920 \\ 1000 \mathrm{ha} . \end{gathered}$ |
| :---: | :---: | :---: | :---: |
| Autumn wheat | 23.4 | 18.2 | 5.4 |
| Spring wheat | 27.2 | 18.\% | 3.3 |
| Rye | 246.5 | 232.: | 232.9 |
| Barley | 131.6 | 129.5 | 116.0 |
| Oats | 474.6 | 457.2 | 394.9 |
| Mixed crops | 15.4 | 14.1 | 8.5 |
| Peas, beans and vetches | 13.9 | 11.2 | 10.5 |
| Total | 932.6 | 881.0 | 771.5 |

Grass and hay, hayseed
and clover ............ 1,249.4 1,246.5 929.7

| Other fields $\ldots \ldots . \ldots$ | 176.5 | 181.9 | 230.6 |
| :--- | ---: | ---: | ---: | ---: |
|  | Grand total $2,467.9$ | $2,415.8$ | $2,015.2$ |

It will be noted that the increase in the area of wheat was very large last year, while the increase in the area of rye and oats was also worth noting. In comparison with the conditions in 1920 it is striking that the wheat area has increased almost sixfold and that the area under oats, mixed crops, root vegetables and hay also shows a considerable increase.

Year Book of the Bank of Finland. The fifteenth volume of the Year Book of the Bank of Finland has been published in Finnish and Swedish and the English edition will be ready very shortly. The Year Book, which is arranged on the same plan as former issues, contains, in addition to the tables, a review of the economic position in Finland and of the business of the Bank of Finland. The English edition includes further a short description of the business of the Joint Stock banks during the jear under review. - The Statistical Department of the Bank of Finland publishes this Year Book and supplies it free of charge to anyone wishing to receive it.

## THE BANK OF FINLAND MONTHLY BULLETIN

is sent free of charge to anyone wishing to receive it. Finnish booksellers are, however, allowed to sell it at a price of 2 marks per copy. Back numbers are also willingly supplied. Should extracts from the Bulletin be printed, the source should be stated. Correspondence with regard to the Bulletin should be addressed to the Bank of Finland, Statistical Department.

Helsinki (Helsingfors), Finland.
