

## THE FINNISH MARKET REVIEW.

## GENERAL SURVEY.

Business conditions have continued favourable in the last few weeks, mainly stimulated by the brisk foreign trade. Demand has been active abroad and export prices firm. The terms of trade have further improved, as the decrease in the world market prices of many important articles have, so far, failed to affect Finnish export prices though lowering some import prices. These circumstances have favourably influenced production and other economic activity and employment. They have also improved the balance of trade, which is now considerably better than a year ago, and thus the foreign payment position. Building is proceeding at record rate, greatly intensified by speculative calculations. In agriculture the dry and cold weather in the spring has weakened the harvest prospects, especially as regards hay.

The monetary situation seems to be calming down somewhat and signs of stabilization have been noticeable after the Government brought about a complete stoppage of wages and prices (see Items). The efforts to cheok the rise of prices and living costs have involved a considerable extension of the price control and have compelled the Government to continue its subsidizing policy on an ever growing scale, which means increased State expenditure and heavier taxation. The money market is still stringent, in spite of deposits having increased since last year. The demand for
credit is so strong that the Commercial Banks have been forced to further borrowing from the central banlk.

## THE MONEY MARKET.

With regard to the deposits in all credit institutions April was rather favourable. The deposit accounts of the public increased by 2,316 million marks as against only 276 million in April 1950, that exception ally poor result being due to the rise of a fresh wave of inflation. In the first four months of the current year the increase was 9,412 million marks. This was considerably more than the corresponding amount last year, 6,721 million marks, and numerically, though not relatively, also more than in 1949.

May figures are available for the Commercial Banles only. Their total deposits increased considerably, by 3,352 million marks, whereas in May last year they decreased. This great difference is mainly due to the cheque accounts, which, under the influence of temporary factors, fluctuated more violently than total deposits. The deposit accounts proper increased slightly more than last year in May, by 232 million marks as against 145 million. During January-May deposit accounts increased less than in 1950, but the increase in total deposits exceeded last year's amount. In comparison with the need for business credit, the loans granted by the Commercial Banks and other credit institutions were insufficient, so that the
stringency on the money market continued. Many enterprises would have got into great difficulties and perhaps had to stop altogether, had not the Bank of Finland, by greatly increasing its advances to other credit institutions, enabled these to grant more loans than their own resources permitted.

The main task of the Bank of Finland has been to help other credit institutions to overcome their difficulties in financing trade and industry this spring. These advances have, in fact, formed the bullk of the increase in the central bank's loans. As early as April rediscounts exceeded 10,000 million marks, a record up to then, and subsequently they increased still further and reached their highest amount so far at 13,129 million in the first week of May. Towards the end of May they decreased to some extent. The amount of Treasury bills has been much smaller than last year all spring, thanks to the favourable cash position of the State. The loans to the Bank's private customers are still kept within narrow limits, and the small increase noticeable is seasonal in character. The total advances of the Bank of Finiland decreased slightly during the first five months of the year, from 40,535 million marks lat the end of December to 40,285 million at the end of May, although rediscounts increased from 6,913 to 11,345 million in the same period.

## PRIOES.

The upward tendency of prices, which had continued for a long time, has slowed down in recent months. This has partly been due to international price movements, partly to internal factors: the extension of price control, the fading of the inflation psychosis and the newly-introduced stoppage of wages and prices. Besides, the course of the cost of living index has been checked by means of various subsidies. In spite of these, however, the index rose in April by 10 points to 1,047 (August 1938-July
$1939=100$ ). The rise of the wholesale price index, too, which shows the real change in prices better than the cost of living index, has slowed down. Total index, after an increase of 80 points in March, increased by only 44 points to 1,713 in April ( $1935=100$ ). During the first four months of the current year the wholesale price index increased iby 21 per cent.

## TRADE AND INDUSTRY.

Foreign trade was very brisk all spring. The value of both imports and exports far exceeded last year's figures, and exports grew in volume, too. The volume of imports kept slightly below that of the first four months of 1950. The value of exports in January-April was 33,409 as against 18,444 million last year. This, as already mentioned; is largely due to the rise in prices, but also the quantities exported increased so much that their index $(1935=100)$ reached 120 last April as against 110 in April 1950. The value of imports in January-April was 34,390 million marks this year and 25,965 million in 1950. The surplus of imports up to the end of April was only 981 million marks this year, whereas last year it had been 7,521 million.

Industrial activity was lively and the volume index of production ( $1948=100$ ) higher than last year. The index for total industry was 135 in April as against 110 in April 1950. Both the home market industry and, still more, the exporting industry contributed to this result. The volume index of production for export rose from 101 in April 1950 to 139 this April, while the index for the home market indusitry rose from 114 to 133. - According to preliminary information the results of lumbering was 31 million cub. m. piled measure last winter, or about 50 per cent more than in the previous season when 21 million cub. m. were felled.

June 11, 1951.

Tables 23-28 according to Finnish Official Statistics I, A, Foreign Trade of Finland, Monthly Reports.
The term imports covers all imported goods which are placed on the market either immediately after importation or after storage. Exports covers all goods exported from the open market, including re-exports. Goods are declared to the Customs by their owner, who must at the same time state the value of the goods as calculated at the frontiers of the country.

* Preliminary figures subject to minor alterations.

## 24. - YALUE OF IMPORTS AND EXPORTS IN DIFFERENT CLASSES OF GOODS.

## CERTAIN PARTICULARS ABOUT FINLAND.

## 1. FORM OF GOVERNMENT.

Finland formed a part of the kingdom of Sweden from 1154 to 1809; from 1809 it was an autonomous Grand Duchy connected with Bussia up to December 6, 1917, when Finland declared its independence, which was acknowledged by all the Powers including Soviet Russia. It became a republic in 1919. The legislative power of the country is vested in the Diet and the President. The highest executive power is held by the President chosen for a period of 6 years. The President for the current period, March 1, 1950, to March 1, 1956, is Juho Kusti Paasikivi who has been in office since March 11, 1946.

The Diet, composed of 200 members, is elected by universal suffrage. The proportions of the different parties in the Diet elected in 1948 are at present as follows:
Agrarians ..... 56
People's Democrats ..... 37
Conservatives ..... 33
Swedish Party ..... 14
Liberals ..... 5

## 2. LAND.

THE AREA is 337009 square kilometres (Great Britain's area is 245000 sq . km. and Italy's area 301000 sq . km.). Of the total area $9.4 \%$ are inland waters. On an average $13.5 \%$ of the land in the South of Finland is cultivated, $1.6 \%$ in the North, $7.5 \%$ of the whole land. Of the land area 21.7 mill. ha ( 53.5 mill. acres) or $70.9 \%$ are covered by forests.

## 3. POPULATION.

N UMBER OF INHABITANTS (1050): 4.0 millions (present-in-area). Sweden (1949) 7.0, Switzerland (1949) 4.6, Denmark (1949) 4.2 and Norway (1949) 3.2 millions.

DENSITY OF POPULATION (1950): In South Finland 23.1, in North Finland 3.4 and in the whole country an average of 13.1 inhabitants to the square kilometre.

DISTRIBUTION (1950): $68.7 \%$ of the population inhabit the country, 31.3 \% the towns and urban districts. The largeat towns are (1950): Helsinki (Helsingfors), the capital, 368500 inhabitants, Turku (Åbo) 99 900, Tampere (Tamamerfors) 99700.

OCCUPATION (1940): agriculture and forestry $51.6 \%$, industry and manual labour $21.0 \%$, commerce $5.1 \%$, transport $4.6 \%$, other occupations $17.8 \%$.

LANGUAGE (1940): Finnish speaking $90.0 \%$, Swedish speaking $9.6 \%$, others $0.4 \%$.

RELIGION (1948): Lutheran $95.8 \%$, Greek-Orthodox $1.7 \%$, others $2.5 \%$.

EDUCATION (1950): Practically all persons over 15 years of age are literate. There are three universities (the oldest founded in 1640) and 7 colleges of university standard.

INCREASE OF POPULATION (1949): Births 25.8 \% $\%$, deaths $11.1 \%$, increase $13.5 \%$. Deaths in France (1949) $13.8 \%$ and in the United Kingdom (1949) 11.7 \% a .

## 4. TRADE AND COMMUNIGATIONS.

FOREST RESO URCES (1950): The growing stock comprises 1370 million of solid cub. m. incl. bark ( 48384 million cub. ft), of which pine is $45.5 \%$, spruce $32.2 \%$, the rest $22.3 \%$ being leaf-trees, chiefly birch. Of the growing stock 7471 million cub. $\mathrm{ft}, 65.0 \%$ of them pines, are up to the standard required for logs (minimum for sawmill logs $18^{\prime} \times 6^{\prime \prime}$ and for veneer logs $18^{\prime} \times 7^{\prime \prime}$ ). The annual growth is about 41 million of solid cub. m. green wood excl. bark ( 1448 cub . ft). The total removal in 1946 calculated according to the use of wood was 40 million cub. m. ( 14.13 million cub. ft ). In the years 1923 to 1938 in the then area of the country, it
averaged 41 million cub. m. ( 1448 million cub. ft) per y ar, the corresponding yearly growth being 46 million cub. m . (1 624 million cub. ft).

AGRICULTURE (1941): Cultivated land 2.5 million hectares, divided as follows: area under cultivation under 10 hectares $33.1 \%, 10-50$ ha $54.4 \%, 50-100$ ha $7.2 \%$, over 100 ha $5.3 \%$. Cultivated land (1950) is divided between the different kinds of crops as follows: $40.6 \%$ hay, $9.7 \%$ temporary grassland for grazing, $18.8 \%$ oats, $7.6 \%$ wheat, $5.8 \%$ rye, $4.8 \%$ barley, $3.4 \%$ potatoes, $9.2 \%$ other. Dairy units in operation in 1951 amount to 488.

OWNERSHIP OF JLAND (1941): The land area is distributed among different classes of owners approximately as follows: private $49.2 \%$, State $41.6 \%$, Joint Stock Companies etc. $7.1 \%$, communities $2.1 \%$.

INDUSTRY (1949): Number of industrial concerns 5924, workpeople 259143 , gross value of products of industry 260791 million marks.

IENGTH OF RAILWAYS (1951): 4990 km ., of which 4799 km . State railways and 191 km . private. The gauge is in general 1.624 m .

MERCHANT FLEET (1951): Steamships 376 (457643 gross reg. tons), motor vessels 123 ( 90103 gross reg. tons), sailing-ships with auxiliary engines, 146 (14082 gross reg. tons), other sailing-ships 7 ( 6013 gross reg. tons). Total 652 (567841 gross reg. tons).

## 5. FINANCE AND BANKING.

CURRENCY. Since 1860 Finland has its own monetary system. From 1877 up to 1014 the currency maintained its stable gold value, and after the disturbances caused by the war a gold standard was again introduced from January 1 , 1926. The unit currency is the mark (Finnish markkas = 100 penniä). According to the monetary law of December 21, 1925, a gold coin of 100 marks' value shall contain $3^{45} / 19$ grams of fine gold. Since October 12, 1931, the redemption of bank notes in gold is, however, suspended.

STATE FINANCES. According to the finance accounts for 1950 the State revenue was 137219 million marks, of which 129643 million marks were current revenue, and State expenditure 143342 million marks, of which 102006 million marks were current expenditure. The principal sources of revenue were as follows: direct taxes 35063 , indirect taxes 70524 , stamp duty 3691 , interest and dividends 1311 , State property and undertakings (net) -926 , and capital revenue 7576 . See also tables 20-22 in this issue.

MUNICIPAL FINANOES. According to the finance accounts for 1948 expenditure amounted to 34853 million marks. Total revenue was 36547 million marks, of which income from taxation was 22250 million marks. The municipal income tax (non-progressive) averaged $9.7 \%$ of the ratepayers' income.

THE BANK OF TSSUE. The Bank of Finland (founded In 1811) is a State Bank. Its head office is in Helsinki (Helsingfors) with branches in Turku (Åbo), Pori (Björneborg), Vaasa (Vasa), Oulu (Uleaborg), Kuoplo, Joensua, Mikkeli (S:t Michel), Tampere (Tammerfors), Hämeenlinna (Tavastehus), Jyväskylä, Kotka and Lahti.

THE COMMERCLAL BANKS (1951): Number 6, possess 475 offices, where all kinds of banking business is transacted. There is one banking establishment per 8475 inhabitants.

The largest banks are Kansallis-Osake-Pankki, Oy Pohjoismaiden Yhdyspankki - Ab Nordiska Föreningsbanken and Helsingin Osakepankki - Helsingfors Aktiebank, all with head offices in the capital.

OTHER BANKS (1951): Mortgage banks 5, Savings banks 444, Co-operative Credilt Societies 684 and a Central Bank for the latter.

# THE FINNISH COMMERCIAL BANKS IN 1950. 

BY
professor A. E. TUDEER.
HEAD OF THE BANK OF FINLAND INSTITUTE FOR ECONOMIC RESEARCH.

## GENERAL SURVEY.

In 1950 the money market again grew tighter after having eased to some extent in the previous year. This was principally due to psychological causes, to the lack of confidence aroused by renewed inflation owing to which the accumulation of deposits fell off and the demand for credit was intensified. In the autamn, rates of interest advanced all along the line. As, besides, depositors were granted additional relief from taxation, the situation improved during the concluding months of the year. Nevertheless, the position of the commercial banks was appreciably more stringent at the end of the year than it had been a year before.

The number of banks remained unaltered throughout the year, there being six in all. The number of branoh offices increased by 13 and amounted to 472 . Of these, 172 were situated in the towns and 300 in rural districts.

## BALANCE SHEETS OF THE COMMERCIAL BANKS.

The following table conveys a general idea of the changes that occurred from 1948 to 1950.

| Assets | $\begin{aligned} & \text { Mili. } \mathrm{mk} \end{aligned}$ | $\stackrel{1949}{\text { Mill. } \mathrm{mk}}$ | $\stackrel{1950}{\text { mill. } \mathrm{mk}}$ |
| :---: | :---: | :---: | :---: |
| Cash | 3,933 | 5,971 | 5,030 |
| Finnish credit instituttionns . . . . . . . . . . . . . | 2,141 | 2,635 | 3,092 |
| Foreign correspondents | 2,189 | 2,700 | 4,813 |
| Foreign bills | 5 | 13 | 54 |
| Inland bills | 23,999 | 31,196 | 34,498 |
| Loans | 15,214 | 19,620 | 24,886 |
| Cheque accoun | 5,103 | 6,345 | 8,054 |
| Bonds | 4,157 | 3,627 | 2,638 |
| Shares ... | 219 | 243 | 274 |
| Bank premiles, shares in bank premises .. | 650 | 950 | 1,194 |
| Other real estate | 10 | 11 | 11 |
| Sundry assets ........ | 4,234 | 3,873 | 5;695 |
| Total | 61,854 | 77,184 | 90,239 |

| Liabilities |  | 1948 <br> Mill. mk | 1949 <br> Mill. mk | 1950 |
| :---: | :---: | ---: | ---: | ---: |
| Mill. mk |  |  |  |  |

As in the preceding years, the balance sheet totals of the commercial banks increased considerably. The increase represented 13,055 million marks or about 17 per cent, as against about 25 per cent in 1949. The slowing down of the increase was a natural consequence of the slower growth of deposits. The extension of the banks' business - and the continuance of inflation - is also evident in the considerable rise in the cash business of the banks. In all, this amounted to $5,657,000$ million marks in comparison with $4,417,000$ million in the previous year. The rise was thus 28 per cent as against 14 per cent for the previous year.

## BANK FUNDS.

The following table shows the changes in the 'banks' own funds.

|  | $\begin{gathered} \text { Dec. } 31 \\ 1948 \\ \text { Mill. } \mathrm{mk} \end{gathered}$ | $\begin{gathered} \text { Dec. } 31 \\ 1919 \\ \text { mill. } \mathrm{mk} \end{gathered}$ | $\begin{gathered} \text { Dec. } 30 \\ 1950 \\ \text { mill. } \mathrm{mk} \end{gathered}$ |
| :---: | :---: | :---: | :---: |
| Share capital | 1,680 | 2,394 | 3,813 |
| New shares issued | 123 | 313 | 588 |
| Reserve funds. | 1,201 | 1,585 | 1,789 |
| Plensions funds | 25 | 25 | 2 |
| Undisposed profits | 108 | 33 | 150 |
| Profit and Loss accounts ........... | 469 | 627 | 759 |
| Total | 3,606 | 4,977 | 7,101 |

The total of the commercial banks' own funds, taking into account the profit and loss accounts, increased considerably in 1950, namely by 2,124 million marks or by 43 per cent. The increase was due to the fact that all the commercial baniks except one raised their capital, in order to strengthen their position, by issuing new shares. Some of these increases of capital were in process of completion at the beginning of the year, others at its end, so that the total result of the completed increases of capital is not visible in the above table. Part of the new shares was issued at enhanced prices, and in such cases the reserve funds were raised at the same time. On the other hand, two banks made certain transfers which reduced the amount of their own funds. As a final result, the position of the commercial banks was strengthened in this respect, for the amount of their own funds at the end of 1950 was 7.03 per cent of their balance sheet totals, whereas the corresponding proportion at the end of 1949 was 5.64 per cent and a year earlier only 5.07 per cent.

DEPOSITS.
The deposit business of the bankss did not develop, as already mentioned, as favourably as during the preceding years. This is illustrated by the following table.

| Deposit <br> accounts | Cheque <br> accounts | Finnish <br> credit <br> insti- <br> tutions | Total | Advances <br> from the <br> Bank of |  |
| :---: | :---: | :---: | :---: | ---: | ---: |
| 1946 | 17,564 | 13,695 | 4,171 | 35,430 | 2,896 |
| 1947 | 19,982 | 17,754 | 6,601 | 44,337 | 3,502 |
| 1948 | 24,468 | 19,577 | 6,080 | 50,125 | 1,533 |
| 1949 | 31,079 | 23,276 | 7,625 | 61,980 | 1,842 |
| 1950 | 36,579 | 24,461 | 4,934 | 65,974 | 5,692 |

The deposit accounts increased during the year under review by 5,500 million marks or nearly 18 per cent, while the increase in the previous year had been 6,611 million marks or 27 per cent. The result was thus fairly satisfactory, though not particularly good. The progress of cheque accounts was less favourable. They increased by 1,185 million marks or only by about 5 per cent, whereas the increase in the previous year amounted to 3,699 million or 19 per cent. It should be noted,
however, that this poorer result was partly influenced lby some factors of a technical character, above all by a change in the bases for collecting the sales tax.

In spite of being slower than before, the progress of deposits by the public was more or less satisfactory, but deposits by other credit institutions actually decreased. The decrease was as large as 2,691 million marks or over 35 per cent, whereas in 1949 there had been a rise of 1,545 million or 25 per cent. The cause of this change was, of course, the more stringent position of the ,other credit institutions", i.e., mainly of the savings baniks, which forced them to draw upon their reserves.

Altogether, therefore, deposits in the commercial banks grew by only 3,994 million marks or about 6 per cent, while the corresponding rise in the previous year had amounted to 11,855 million marks or close on 24 per cent. It was thus highly intelligible that the commercial banks had to resort to the help of the central bank to a fairly large extent. Their advances obtained from the Bank of Finland rose from 1,842 million marks to 5,692 million or to fully three times as much.

## LOANS.

The advances proper made by the commercial banks are illustrated by the following figures.

|  | Inland bills | Loans | Cheque accounts | Finnish credit institutions | Total |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Mill. mk | Mill mk | Mill. mk | Mill: mk | Mill mk |
| 1946 | 10,176 | 14,598 | 4,000 | 755 | 29,529 |
| 1947 | 16,589 | 14,957 | 4,332 | 1,782 | 37,660 |
| 1948 | 23,999 | 15,215 | 5,103 | 2,141 | 46,458 |
| 1949 | 31,196 | 19,620 | 6,345 | 2,635 | 59,796 |
| 1950 | 34,498 | 24,886 | 8,054 | 3,092 | 70,530 |

The loans granted by the commercial banks increased greatly, as was natural, seeing that the need for credit, owing to the rise in costs and to reconstruction requirements of many kinds, was exceptionally great. However, as deposits did not increase very much, the possibilities of granting loans were less than in the previous year; without the advances from the central bank the commercial banks would have had to keep their lending business within very narrow limits. Nevertheless, loans increased in 1950 altogether
by 10,734 million marks, the equivalent of 18 per cent, whereas in the previous year the increase had amounted to 13,338 million or close on 29 per cent. It should be noted that all the forms of loans displayed a considerable rise.

During the war the commercial banks bought large quantities of Government bonds, so that their bond portfolio exceeded the amount of their actual lending. Subsequently the bond portfolio was reduced from year to year as the bonds were redeemed and as the commercial banks determinedly endeavoured to release their funds for their real object, the financing of business life. The same tendency continued during the year under review, during which the booked value of the bonds held by the banks was reduced from 3,627 million marks to 2,638 million, i. e., by about one third.

## CASH AND CASH RESERVES.

The changes in the liquidity of the commercial banks are illustrated in the table below.

|  | Cash | $\underset{\text { reserves }}{\text { Cash }}$ | Total | Sight liabilities | Ratio of cash and cash reserv to sight |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Mill, mk | MIII. mk | Mill. mk | Mill. mk | liabilities |
| 1946 | 3,756 | 7,268 | 11,024 | 21,939 | 50.2 |
| 1947 | 6,280 | 6,735 | 13,015 | 29,001 | 44.9 |
| 1948 | 3,933 | 5,004 | 8,937 | 30,739 | 29.1 |
| 1949 | 5,971 | 4,771 | 10,742 | 37,627 | 28.5 |
| 1950 | 5,030 | 4,048 | 9,078 | 41,250 | 22.0 |

The cash and cash reserves of the banks include the cash of the banks, funds deposited on current account in the Bank of Finland, extraneous bank-post-bills and cheques, and the banks' net credit balances in other banks, commercial bills in foreign currency payable abroad, !bonds in Finnish currency issued or guaranteed by the State and bonds listed on foreign Stock Exchanges. The liabilities payable on demand include all the indebtedness of the banks payable at sight and the undrawn amount of credits granted on cheque accounts.

These figures provide a clear picture of the extent to which the position of the commercial lbanks has tightened.

The cash and cash reserves together were reduced by 1,664 million marks. The reduction was principally due to the drop
in the ibanks' current accounts at the Bank of Finland and to the decrease of their bond portfolio. At the same time their liabilities payable at sight increased by 3,623 million marks, chiefly because of the growth of deposits on cheque accounts and the powerfuil increase in the undrawn advances on cheque accounts. For these reasons the ratio of the cash and cash reserves to the amount of sight diabilities decreased appreciably and was lower than in any previous year. As the Bank law stipulates that this ratio must be not less than 20 per cent, the commercial banks were, however, still on the right side of the limit.

## RELATION TO FOREIGN COUNTRIES.

As foreign trade and other commercial relations with foreign countries grew considerably more active, the foreign indebtedness' and foreign balances of the commercial banks also increased to a great extent. As the following figures show, the foreign indebtedness of the banks grew slightly more than their foreign balances, so that the net foreign balances, which amounted to 493 million marks at the beginning of 1950, represented 413 million at the end of the year.

| Balances | Indebtedness | Net balaneses <br> or indebted. <br> nisess <br> Mill. $\mathbf{m k}$ | Mill. mk |
| :---: | :---: | :---: | :---: |

RATES OF INTEREST.
In 1949 general economic stabilization and especially the easing of the money market made it possible to lower rates of interest all along the line. It was hoped that this tendency would continue, as, even after the reduction, rates in Finland were high - as generally in countries poor in capital. In this respect, however, hopes were frustrated. On the contrary, rates of interest had again to be raised during the past year. The question came up in the early spring, when deposits in the credit institutions fell off and withdrawals even exceeded deposits. A decision was,
however, postponed to the autumn. The insurance companies decided as early as August to raise their rates on loans, and on September 6 the joint delegation of the financial institutions resolved to recommend that the rates on both loans and deposits should be raised. From the beginning of October their rates were raised 2 per cent on deposit accounts and 1 per cent on cheque accounts, and rates on credits by a maximum of 2 per cent. Thus the deposit rate of the commercial banks rose to 7 per cent, the rate on cheque accounts to 2 per cent, the rate on firstclass mortgages and similar advances to a maximum of $91 / 2$ per cent and the rate on other credits to a maximum of 10 per cent. The small banks, however, retained the right of charging slightly higher rates.

The change in the level of interest rates is best seen in the average rates charged by the commercial banks. At the end of 1949 their average rate on loans granted was 7.83 per cent, but a year later it had risen to 9.75 per cent. Their average rate on deposits rose correspondingly from 3.43 to 5.24 per cent.

## THE YEAR'S RESULTS.

The income and expenditure of the commercial banks during the year under review, compared with the results for the two preceding years, are shown in the following table.

| Income | $\stackrel{1948}{\text { Mul. }} \mathrm{mk}$ | ${ }_{\text {Mill }}^{1949}$ mk | $\begin{gathered} 1950 \\ \text { Mill. } \mathrm{mk} \end{gathered}$ |
| :---: | :---: | :---: | :---: |
| Interest | 3,396 | 4,120 | 5,315 |
| Income on bonds and shares | 256 | 353 | 304 |
| Agio . . . . . . . . . . . . | 174 | 332 | 339 |
| Recovered on claims previously written off ................ | 3 | 3 | 22 |
| Income from bank premises .......... | 9 | 26 | 33 |
| Sundry earnings .... | 336 | 341 | 395 |
| Total | 4,174 | 5,175 | 6,408 |
| Expenditure |  |  |  |
| Interest | 2,202 | 2,633 | 2,927 |
| Taxes | 348 | 450 | 832 |
| Salaries | 740 | 871 | 1,172 |
| Other expenses | 368 | 488 | 651 |
| Amounts written off | 39 | 94 | 49 |
| Transferred to pensions funds ...... | 8 | 12 | 18 |
| Net profits ........ | 469 | 627 | 759 |
| Total | 4,174 | 5,175 | 6,408 |

In view of the increase of the business of the commercial banks and of the rise in rates of interest it was natural that both their income and expenditure should be greater than in any previous year. The steep rise in taxes is specially worth noting. On the other hand it should be noted that the figures for taxes given above do not represent all the taxation paid by the banks during the year, but that a part of their capital levy payments was effected by other -means. The considerable rise in salaries and other expenditure is, of course, partly due to inflation.

The balance sheets of all the commercial banks showed a profit for 1950, the total amounting to 759 million marks. This was 132 million more than profits booked lby the banks for 1949.

As 150 million marks had been carried over on the accounts of undisposed profits, the meetings of shareholders had 909 mil lion marks in all at their disposal. Of this amount 155 million were transferred to the reserve funds in order to strengthen the
position of the banks, 13 million were set aside for purposes of public welfare and 272 million marks were carried over on the profit and loss accounts, so that the balance was appreciably larger than a year before. Altogether 469 million marks were distributed in dividends, whereas the corresponding figure for 1949 was only 318 million. This remarkable increase was largely a natural consequence of the great increase in the share capital of the banks.

The following table shows the dividends paid in recent years.

|  | Dividends Mill. mk | \% of share capital | $\%$ of the banks own funds |
| :---: | :---: | :---: | :---: |
| 1938 | 100.2 | 12.16 | 6.58 |
| 1944 | . 151.5 | 11.2:0 | 5.85 |
| 1945 | . 15.6.2 | 11.7 .2 | 5.97 |
| 1946 | . 196.1 | 11.72 | 5.78 |
| 1947 | . 220.0 | 13.11 | 7.52 |
| 1948 | . 261.9 | 15.59 | 8.35 |
| 1949 | . 317.8 | 13.28 | 7.31 |
| 1950 | . 469.0 | 12.30 | 7.89 |

Some general information regarding each of the banks is given below.

# ECONOMIC ORGANIZATION IN FINLAND. 

BY

PAAVO AARNIO, MAG. PHIL.

COUNSHLLOR OF COALMERCE, MINISTRY OF COMMERCE AND INDUSTRY.

## REASON: FOR ESTABLISHING THE ORGANIZATIONS.

The constant expansion and increasing complexity of economic life called in Finland, as elsewhere, for the introduction and development of organization, and this movement was further stimulated by the change in political conditions. In the organization of Finnish economic life it is possible to distinguish three large waves, each of which has caused the rise of a large number of vigorous associations.

The first phase occurred during the last decades of the 19th century. Its economic causes consisted in a powerful transition from agriculture to other occupations, provoked iby the growth of the population, and the accession to power of industrialization and barter economy. At the same time the national feeling, aroused. in counteracting Czarist Russia's policy of repression towards Finland, sought for expression in the spheres of intellectual culture as well as of economic life. Another contributory factor was the desire of the Finnish-speaking majority to obtain more influence, as at that time the Swedishspeaking upper class, which was in a minority, mainly controlled cultural and economic life. These different factors swept away the old guild system, which was legally dissolved in 1868 and 1879. Industrial freedom came into force and many new undertakings were established. As a relic of the former period it was, however, considered necessary to preserve the obligation for town craftsmen, owners of industrial undertakings and merchants to belong to associations in their spheres, the membership fees of which were collected in the form of taxation. These associations, working on a local basis and restricted to the towns, were, however, not able fully
to utilize the combined forces of the owners of enterprises in the promotion of their interests. New forms of action were sought. Already in that initial period branch organizations, based on voluntary membership, were formed, particularly by craftsmen, but also by men engaged in industry, commerce and some other spheres. The first organizations in the labour market, too, made a start before and after the turn of the century.

The second and far more extensive phase is connected with the attainment of Finland's political independence in December 1917, when the country's economy was in the grip of hard times and had to resort on an ever broader scale to the means provided by co-action. Economic life had by that time become so complex that it was necessary to reorganize the organizations. A system of chambers of commerce was introduced and large central organizations were established in industry and commerce for uniting the branch organizations that were formed in ever growing numbers. Many members of the organizations in the woodworking industry and in other industries undertook to sell the whole of their output through the organizations. In commerce, too, some such economic selling or purchasing organizations were created. Also the labour market organizations closed their ranks and laid down their lines of action more clearly.
The third wave was brought on by the second world war, when efforts were made to overcome the difficulties of regulation economy by organized action. The enforced severity of foreign trade regulation, in particular, demanded close co-operation between the State and the business world. Voluntary associations were formed especially in different branches of the import
trade, mostly on the initiative of the State, in cases where such associations had been lacking. The Ministry of Supply that existed in 1939-1949 founded some compulsory associations, principally in various branches of the timber export trade, but all of them have now been dissolved. Some of the voluntary associations were disbanded, when conditions improved, but most of the remaining ones considered cooperation so advantageous that they changed their temporary organization into a permanent one.

As the influence of Government economic policy grew, business men had to resort on an ever growing scale to the support of their organizations in order to give their opinions due weight. At the same time it is easier, through the organizations, to keep business men up-to-date regarding the complicated regulations and changing market conditions. It is noticeable that the interest of business men in their organizations grows, when conditions become more difficult, but decreases to some extent, when conditions are easier. The strongest form of association has been attained by branch associations, whereas the importance of the chambers of commerce and especially of the legally prescribed associations of craftsmen, industrialists and merchants has decreased. Inflation has caused tension in the labour market and thereby stimulated the activity of the labour market organizations.

## THE NATURE AND TASKS OF THE ORGANTZATIONS.

The economic organizations are thus very varied in kind. There are no longer any gaps worth mentioning. On the contrary, in many spheres several organizations overlap. One of the reasons is that private enterprises and co-operative undertakings keep almost invariably to separate organizations. Besides, in agriculture and forestry, in particular, the Finmish-speaking and Swedish speaking elements of the population have formed their own organizations. Political considerations appear to play their part especially in the organization of co-operative concerns, small farmers, and publishers. Moreover, in many cases the size of undertakings has led to the formation of two or even more parallel
organizations, e.g., in the spheres of big and small industry and in wholesale and retail trade. On the other hand, these organizations have in many cases estaiblished joint central organizations and sometimes, especially in their relations to the Government, they are able to make combined representations not confined to the central bodies.

The following list includes the most important organizations for promoting economic-political (ideological) and economic interests. Splecial mention is made of some of the most important labour market organizations, of which those formed by employers deal exclusively with labour questions in most cases, but some are also concerned with economic policy. Finally, the chambers of commerce are mentioned, which, as in other countries, unite all the commercial occupations in regional combinations. The object of their activities is generally evident in the names of the organizations. Additional information is given, where necessary. The largest orgamizations are generally domiciled in Helsinki, and only the street and number are mentioned. Local organizations and many small organizations carrying on work in their spheres throughout the country have had to be omitted owing to lack of space. The numbers represented by the organizations vary very much, but the majority of undertakings in each sphere belongs to the organizations included in this list or to the numerous ones omitted. As regards the names of the organizations, those given in English are the names employed by the organizations themselves.

THE PRINCLPAL ORGANIZATIONS, ACCORD. ING TO SPHERES OF ACTIVITY.

## REAL ESTATE OWNERSHIP

Suomen Asuntokiinteistöliitto, Aleksanterinkatu 11. (An association of house-owners.)
Besides, there are three associations of small honseowners.

ARGICULTURE AND FORESTRY.
General organizations:
Mastaloustuottajain Keskusliitto / Central Union of Agricultural Prodacers in Finland, Simonk. 6. (Finnish-speaking producers.)
Svenska Lantbruksproducenternas Förbund/Union of Swedish Agricultural Producers in Finland, Nylandsg. 4 A. (Swedish-speaking producers.)

Maatalousseurojen Keskusliitto / Central League of Agricultural Societies, Lönnrotink. 11. (A Finnish-speaking consultative association.)
Svenska Lantbrukssällskapens i Finland Förbund / Central League of Swedish Agricultural Societies in Finland, Fabiansg. 13 A. (A Swedish-speaking consultative association.)
Pellervo-Seura / The Pellervo Society, Simonk. 6. (A Finnish-speaking central association for co-operation in agriculture.)
Pienviljelijäin Keskuslitto / Oentral Association of Small Farmers, Vuorik. 15. (A non-party, though mostly bourgeois consultative association.)
Suomen Pienviljelijäin Liitto / Finnish League of Small Farmers, Maneesink. 2 a A. (A Social-Democratic consultative association.)
Pienviljelijäin Liitto, Aleksanterink, 7a. (A Communist consultative association of small farmers.)
Keskusmetsäseura Tapio / Central Forestry Association Tapio, Mannerheimintie 3-5. (A Finnish-speaking central association for promoting private forestry.)
Centralskogssällskapet Skogskultur / Central Forestry Association Forest Cultivation, Kaserng. $44 . \quad$ (A Swedish-speaking central association corresponding to Tapio.)
Mabtalousnaisten Keskusjohtokunta / The Centre of Agricultural Women, Lönnrotink. 11.
There are numerous special associations in various spheres of farming, but contact with them can be established through the Central League of Agricultural Societies or the corresponding Swedish-speaking central league. The agricultural societies are among the oldest economic organizations in Finland. Thes include the oldest organization, "Suomen Talousseura" (the Finnish Economic Society), established in 1797 and still active.

## FISHING.

Suomen Kalastusyhdistys, Vironk. 9 A. (A central association representing fishing interests.)

## INDUSTRY, MINING AND POWER.

## General organizations:

Suomen Teollisuusvaltuuskunta/Council of Finnish In. dustries, E. Esplanaadik. 18. (A joint organ of the largest industrial associations and employers' federations.)
Suomen Puunjalostusteollisuuden Keskusliitto / Central Association of Finnish Woodworking Industries, E. Esplanaadik. 2. (A central association of the exporting industries to which the largest associations of sawmill owners and woodworking manufacturers belong.)
Suomen Teollisuuslitto / The Federation of Finnish Industries, E. Esplanaadik. 18. (A central association for other big industry than the woodworking industry.)
Teollisuudenharjoittajain Litto/Manufacturers' Association, Satamak. 4. (A central association for small and medium-sized industry.)

Among special organizations mention can only be made of the largest ones and of such small ones as do not belong to any of the central associations named above.
Suomen Metalliteollisuusyhdistys / Finnish Metal Industries Association, E. Esplanaadik. 18. (Big metal industry.)

Metalliteollisuudenharjoittajat / Metal Industry Association, Satamak. 4. (Small and medium-sized metal industry.)
Kemian Keskusliitto / Central Chemistry Association, Mikonk. 11.
Suomen Selluloosayhdistys / The Finnish Cellulose Union, E. Esplanaadik. 2. (Sales organization.)

Suomen Puuhiomoyhdistys / The Finnish Woodpulp Union, E. Esplanaadik. 2. (Sales organization.)
Suomen Paperitehtaitten Yhdistys/The Finnish Paper Mills' Association, E. Esplanaadik. 2. (Sales organization.)
Suomen Kartonkiyhdistys / The Finnish Board Mills' Association, E. Esplanaadik. 2. (Sales organization.)
Suomen Paperin- ja Kartonginjalostajain Yhdistys/The Finnish Paper and Board Converters' Association, E. Esplanaadik. 2. (Sales organization.)

Suomen Sahanomistajayhdistys / The Finnish Sawmill Owners' Association, E. Esplanaadik. 2.
Suomen Sahat / Finnish Sawmills, P. Esplanaadik. 25 B. (An organization of small sawmills.)
Suomen Vanoriteollisuusyhdistys / Association of Finnish Plywood Industry, E. Esplanaadik. 2.
Suomen Rullayhdistys / The Finnish Spoolmakers' Association, Aleksanterink. 7 a. (Sales organization.)
Puutalo Oy / Timber Houses Latd, Mannerheimintie 9 B. (Sales organization for prefabricated houses.)
Myyntiyhdistys Puurakenne / Puurakenne - Sales Association for Wooden Constructions, Meritullink. 3. (Also a sales organization for prefabricated houses.)
Pelkkatalojen Myyntiyhdistys, Simonk. 6. (Selling association for prefabricated log huts.)
Suomen Puulaivateollisuus / Association of Finnish Wooden Vessels Industry, Kalevank. 3 A. (Also vessels constructed of steel and of steel and wood.)

## COMMERCE

General organizations of private
enterprises:
Yksityisyrittäjäin Liitto/The Free Enterprise Association, Yrjönk. 13. (Publicity.)
Suomen Tukkukauppiaiden Liitto / The Association of Finnish Wholesalers, Keskusk. 4. (Central organization of the principal wholesale societies, with Tukkukauppojen $\mathrm{O}_{\mathrm{y}}$ as its central commercial organ.)
Suomen Ulkomaankauppalitto / The Finnish Forsign Trade Association, E. Esplanazdik. 18. (Specially for promoting small exports, but also for publicising Finland abroad; information service.)
Suomen Teknillinen Kauppaliitto / The Finnish Association of Technical Traders, E. Esplanaadik. 22 A. (Importers of machinery, chomicals and other industrial requisites.)
Vähittäiskaupan Keskusliitto / Central Association of Finnish Retailers, Hallitusk. 15 B. (Principal retailers' societies.)
Suomen Vähittäiskauppiasliitto / The Federation of Finnish Retailers, Satamak. 3. (Mainly dealers in farm and colonial produce, for whom Kesko $O y$ is the central commercial organ.)
Valtakunnan Kauppiasliitto / National Association of Shopkeepers, Kasarmink. 10 A . (Mainly retailers belonging to the Free Enterprise Association, commercially close to Tukkakauppojen Oy.)
Finlands Svenska Köpmannaförbund / Swedish Retailers' Association in Finland, Lönnrotsg. 30 A.

Generaloganizationsof cooperative concerns:
Yleinen Osuuskauppojen Liitto / The General Co-operative Union, Vilhonk. 7. (Non-party, mostly bourgeois, co-operative stores, for which Suomen Osuaskauppojen Keskuskunta (SOK)/The Finnish Co-operative Wholesale Society forms the central commercial organ.)
Kulutusosuuskuntien Keskusliitto (KK)/Central Union of Finnish Distribative Societies, Mikonk. 17. (An organization for publicising the Progressive or, rather, Leftist line in co-operative trade, the central commercial organ for which is Osuustukkukauppa (OTK) / The Co-operative Wholesale Society.)
Finlands Svenska Andelsförbund/The Swedish Co-operative Union of Finland, Unionsg. 18 A . (Commerce and production.)

## Special organizations:

Puunviejät, Mikonk. 13. (An association of exporters of round timber and spars, but not of sawn goods.)
Suomen Puasiamiesliitto, Unionink. 40 A. (An association of timber agents.)
Metex Osuuskunta, Bulevardi 3. (An exporting association of big metal works.)
Suomen Rauta- ja Koneliikkeiden Yhdistys, Kasarmink. 40. (An association of wholesale importers of hardware and machinery.)

## ACCOMODATION, CATERING AND TRAVEL.

Majoitus- ja ravitsemiselinkeinonharjoittajain luottamusneuvosto, Kluuvik. 8. (Trust committee on accomodation and catering.)
Suomen Hotelli- ja Ravintolaliitto / The Finnish Hotel and Restaurant Association, Kluuvik. 8. (The actual central body in the sphere of accomodation and catering.)
Suomen Matkailijayhdistys / The Finnish Tourist Association, Mikonk. 15 A . (The general publicity organization for tourist traffic which also owns hotels.)
Lomaliitto / The Holiday Association, Mikonk. 17. (An association for the promotion of the interests of mothers of families.)

## BANKING.

Rahalaitosten neuvottelukunta, Aleksanterink. 46 A. (A joint consultative body for the three following banking organizations and the Post Office Savings Bank, SOK and OTK.)
Stomen Pankkiyhdistys, Aleksanterink. 36 A. (An association of commercial banks.)
Suomen Säästöpankkiliitto / The League of Finnish Savings Banks, Aleksanterink. 46 A .
Osuuskassojen Keskusliitto, Arkadiank. 23. (An association of co-operative credit societies.)

## INSURANCE.

Suomen Vakuutusyhtiöiden Keskusliitto / Association of Finnish Insurance Companies, Bulevardi 7.
Maaseudun Palovakuntusyhdistysten Liitto, Simonk. 6. (An association of fire insurance companies in rural districts.)
Svenska Brandförsäkringsföreningarnas Förbund, Vasa. (An association of Swedish-speaking fire insurance companies.)
Suomen Tapaturmavakuutuslaitosten Liitto, Bulevardi 7. (An association of accident insurance companies.)

Liikennevakuutusyhdistys, Kluuvik. 8. (Transport insurance.)
Suomen Autovakuutusliitto, Kluuvik. 8. (Insurance of motor vehicles.)

## TRANSPORT.

Ammattiautoliitto, Fredrikink. 65 B. (A professional motor transport association.)
Linja-autoliitto, Simonk. 3. (An association of motor bus owners.)
Suomen Kuljetusliikkeiden Liitto, Kaisaniemenk. 5B, (An association of large motor transport companies.)
Kuljetuskeskusten Liitto, Fredrikink. 65 B. (An association of small motor transport companies.)
Suomen Autoklubi, Fabianink. 14. (Automobile club.)
Yleinen Autoliitto, Mikonk. 3 B. (General automobile association.)
Marseudun Autoliitto. Sinoonk. 6. (Rural automobile association.)
Suomen Moottoriliitto, E. Makasiinink. 6. (Motor cyclists' association.)
Suomen Laivanvarustajain Yhdistys / The Finnish Shipowners' Association, E. Esplanaadik. 22 A.
Suomen Lastauttajain Liitto / The Federation of United Finnish Stevedores, Fredrikink. 20 A.
Summen Ahtaajain Yhdistys, Vuorik. 3. (An association of stevedores.)
Suomen Huolintaliikkeiden Liitto / Finnish Forwarding Agents' Union, Runebergink. 31 A.
Suomen Laivansolvittäjäb- ja Laivameklariliitto, P. Esplanaadik. 33. (An association of shipping agents and shipbrokers.)

## HANDICRAFTS AND HOME INDUSTRIES.

It is not always easy to draw the line between actual industry, especially small industry, and handicraft. For this reason it has been established in Finland that handicrafts consist of certain trades that demand special skill and are generally carried on on a small scale.

Handicrafts, general organization:
Käsiteollisuusliitto, Kansakouluk. 10 A. (A central organization of most of the voluntary associations in this branch, but also of the legally prescribed handicraft and industrial associations; it devotes itself mainly to giving advice and professional training.)
In addition, there are a great many special handicrafts organizations.

## Homeindustry:

Kotiteollisuusjärjestöjen Keskusliitto, Kansakouluk. 10 A. (A federation of home industries.)
Suomen Kotiteollisuusliitto, Kalevank. 3. (An association of home industries.)

## LABOUR MARKET ORGANIZATIONS.

## Employersorganizations:

Suomen Työnantajain Keskusliitto/Finnish Employers' Confederation, Unionink. 32. (Association of employers in many branches of industry.)
Liiketyönantajain Liitto / Confederation of Commexcial Employers, Aleksanterink. 46.
Maataloustyönantajain Liitto/Confederation of Agricultural Employers, Simonk. 6.

Workers organizations:
Suomen Ammattiyhdistysten Keskusliitto / The Confederation of Finnish Trado Unions, Pasaivuorenk. 5. (Mostly Left wing manual labourers.)
Henkisen Työn Keskusliitto / Confederation of Intellectual Workers, Vuorik. 20. (Mostly bourgeois.)

Both include many organizations divided according to branches, but there are also associations that do not belong to the central organizations.

CHAMBERS OF COMMERCE.
Keskuskauppakamari, Fabianink. 14. (Central Chamber of Commerce.)
There are 13 local chambers of commerce.

International organizations:
Ranskalais-Suomalainen Kauppakamari, Bulevardi 9. (French-Finnish Chamber of Commerce.)
Suomalais-Belgialainen Kauppayhdistys, Mannerheimintie 134 A. (Finnish-Belgian Commercial Association.)
Suomalais-Neuvostoliittolainen Kauppakamari, Aleksanterink. 7 A . (Finnish-Soviet Chamber of Commerce.)
Suomalais-Ruotsalainen Kauppakamari, E. Esplanaadik. 18. (Finnish-Swedish Chamber of Commerce.)

GENERAL IDEOLOGICAL ORGANIZATIONS.
Suomen Työn Liitto, Vuorik. 20. (An association for publicising Finnish products in Finland.)
Suomen Messut Osuuskunta/The Finnish Fair, Mannerheimintie 17. (Organizers of trade fairs.)

Considerations of space have confined the above list to the most important organizations. Nevertheless, they give an idea of the extent and variety of the economic organization in Finland, although all purely technical and professional organizations have been omitted. In conclusion it need only be mentioned that this abundance of associations has arisen in the great majority of cases on private initiative and is mainly based on voluntary membership. Acknowledgement is due to all the economic organizations for their constant willingness to co-operate with the Government in order to overcome their common difficulties and promote Finnish economy. Their activity in international relations is also worth noting.

## ITEMS.

Supplementary budgets. On April 20, 1951, the Diet passed the first supplementary budget for 1951. Current expenditure was raised by 5,898 million marks, while income was estimated to decrease by 283 million. The rise is almost exclusively due to the increase in the salaries of civil servants.

On June 13 the Diet passed the second suppplementary budget, according to which expenditure will increase by 23,818 million marks in all, current expenditure by 19,724 million and capital expenditure by 4,094 million. Revenue is estimated to increase by altogether 14,223 million marks, of which 11,906 million refer to current revenue and 2,317 million to capital revenue.

The main items of current revenue are: additional taxation of joint stock companies, 5,700 million marks, and increase in the excise dues on coffee, 3,500 million. The increase in capital revenue is due to some nominal items. The principal item
of current expenditure consists of subsidies for reducing the prices of agricultural products, 8,210 million marks.

Wage and price stoppage. In order to stabilize the value of money, an agreement was made on May 2, 1951, between the Government and the organizations representing various interests. The intention was to give the Government time enough for preparing a long-time economic policy. The agreement is in force to the end of September. During this period wages may not be raised, and the Government will check price increases. According to the agreement the Government has appointed a committee for drawing up a stabilization programme.

Already on April 24 the Government had issued a decision extending its control to all prices and fees, including those free until then, and prohibiting price increases without permission. Only the Ministry for

Social Affairs may for special reasons grant exemptions from this rule.

Taxation on foreign exchange for travelling. Of the luxury taxes introduced by the Government in its second supplementary budget proposal the tax on foreign exchange sold for travelling was passed on June 1, 1951. According to the decision of the Diet this tax is a temporary stamp duty of 10 per cent of the amount in Finnish marks of the foreign currency bought or disposed of for travelling abroad. The Government was authorized to increase the tax to 30 per cent, at which amount it is now collected according to a Government decision of the same day.

Free of duty foreign exchange may be bought or disposed of for travelling purposes as follows:

1) for research or studies, when the stay abroad as financed by a fellowship or scholarship lasts for more than three months and is financed by a fellowship or scholarship granted by the State, a State institution, the Finnish Academy, a university or a school of university standing, a commune, the Church or a registered religious body, or such bodies, institutions, foundations or funds for general benefit the means of which are generally used for supporting research work and studies;
2) for travelling when the traveller represents science, art or physical culture and has been granted Government support by the appropriate ministry, the matter having been prepared by the Government committee of ways and means;
3) for amounts paid by Finnish airlines to their flying personnel for food and housing in foreign airports; and
4) by domestic travel bureaux on conditions set down by the Bank of Finland for the sale of tickets to be credited to foreign countries.

The tax is fiscal in nature. It is collected by the Bank of Finland and Commercial Bank offices authorized by the Bank of Finland to sell foreign exchange for travelling.

The decision has been applied since June 11, 1951, and is in force to the end of the current year.

Trade agreements. Finland has recently concluded trade agreements with the following countries.

Columbia. In the beginning of April an agreement was signed according to which Columbia undertook to deliver 400 million dollars' worth of coffee against Finnish exports at an equal value. Finland's exports will include paper, cardboard, plywood, locks, and various machinery.

Denmark. A supplement to the trade agrement of July 8, 1950, was signed on April 7, 1951. The value of trade will amount to 7.6 million Danish crowns in each dinection. Finland will export mainly paper, pasteboard and cardboard, and import apples, pharmaceutical products, woollen yarn and cork insulating materials.

Greece. An agreement for one year beginning March 24, 1951, was concluded in April. Exports in each direction will amount to 4.5 million dollars. Findand will export sawn goods, plywood, chemical and mechanical pulp, paper, chinaware, and various machinery, while Greece will export tobacco, dried raisins and figs, wine, cotton and cotton fabrics.

Japan. A quota agreement concerning trade during the current year has been arrived at by negotiations. Trade in each direction will amount to 2.7 million dollars. Finland will export sulphite cellulose for the rayon and paper industries and import ship plates, cotton products and chemicals.

Italy. On May 5, 1951, a trade agreement was signed to replace the former one dated November 1, 1950, and also a new payments agreement on a clearing basis. The quota for the 11 -months period beginning May 1 was fixed at 32 million dollars. Finland will export mainly cellrulose ( 11.6 million dollars), timber, cardboard and other woodworking products, machinery and apparatus, chinaware, and cheese. Italy's exports will include 5,000 tons of rice, 41,000 tons of petrol, woollen and cotton yarns and fabrics, office machines ( 500,000 dollars), motor-cars ( 300,000 dollars), motor-car tires, chemicals, tobacco, and wine. - Last year exports to Italy amorunted to 2,000 million marks and imports from Italy to 2,700 million marks. The present agreement covers trade for altogether 6,400 million marks.

Israel. On May 10, 1951, an additional quota was agreed upon outside the trade and payments agreement of 1950. Finland will export sawn goods, plywood, paper and prefabricated houses to a total value of 1.5 million dollars and import textiles for about 1 million dollars.

Czechoslovakia. A tripartite agreement between Finland, the Soviet Union and Czechoslovakia was concluded on May 19, 1951. Czechoslovakia's exports to Finland will amount to 400 million Czechoslovakian crowns and include sugar, motor-cars, machinery for the textile and other industries, rubber, textiles, and chemicals.
Western Germany. A complement to the supplementary agreement of last January was signed on May 19, 1951. The lists of commodities concerned will be in force to the end of 1951. Trade in each direction will amount to fully 24 million dollars. Finland's exports will include timber and wood goods ( 9 million dollars), chemical and mechanical pulp ( 7.7 million dollars), paper and paper products ( 3.8 million dollars). Finland's imports will include coal and coke, electric machinery, scrap, steel and iron products, chemical products (paints and dyes), textiles, and rubber articles.
Eire. By the exchange of notes a trade agreement was made on June 1, 1951. Both parties undertook to grant each other all reasonable facilities in the importation of goods originating in the other country.
The Governments have informed each other about the commodities they want included in the lists of goods to be exchanged. Irish imports will include boxboards, prefabricated houses and huts,
wooden house components in precut form, plywood, bobbins, wallboard, paper, chinaware, and sweets. Finland's imports will depend on her sterling resources. They will consist of fabrics, stockings, hosiery, leather, rain coats, rope, gypsum, and whisky. The principles of payment will be the same as between Finland and other countries belonging to the sterling area. The stipulations of the agreement will be in force until either party wants them changed.
France. An agreement concerning the exchange of goods during one year beginning June 1, 1951, has been concluded. Finnish exports will amount to 20,000 million franes and French exports to 17,000 million francs. The difference is intended to cover Finland's present deficit in France. Finland will export cheese, timber, cellulose for the paper and rayon industries, paper, cardboard, walliboard, bobbins, electric motors, and sports equipment. Exports from France will include iron and steel, raw materials for the textile industry, fabrics, fertilizers, chemicals, machinery, motor-cars and tines, and wine.

Year Book of the Bank of Finland. The thirty-first volume of the Year Book will shortly be published. The English edition will appear somewhat later. Besides the statistical section, which ineludes data regarding the Commercial Banks, it contains, as usual, a review of the economic position of the country and of the business of the Bank of Finland during the past year. It is edited by the Bank of Finland Institute for Economic Research.

## BANK OF FINLAND
