Dear Mr Governor,

In reply to your letter of 28th May 1938 referring to the different monetary régimes in certain countries and the various methods of booking gold and foreign assets in the Central Bank returns, and the allocation of profits from gold revaluation - I have to enclose the following statements:

- a) a synoptic table, with headings suggested by your questions;
- b) a separate annex applying to each of the eight countries covered by the table, giving either copies or extracts of the relevant laws, or indications of sources of information.

I need hardly add that it is a great pleasure for me to be of some service to you and that I should be glad to reply, as far as is in my power, to any further questions you may have.

I am, dear Mr Governor,

Yours sincerely,

F. Conroy
