Ulea Aktiebolag one of the largest Finnish timber firms asks for a credit of 3 million dollars for the term of one year with the guarantee of Unionbanken I propose collaboration in such a manner that considering the fact that we have undisposed means there you take one and we take two millions Unionbanken guarantees the whole credit If you wish we give additional guarantee for your share Credit would be arranged in the form of six months or three months drafts As interest I propose under present circumstances about 6 % in all You act there as our trustee we here as yours Please inform me whether you consent on principle so that I can continue negotiating here-
